

## Cultivation of Mix of Products

**Date :** February 17, 2019

The Africa Development company "ADCL" cultivated a mix of agricultural products such as Banana, potato, pineapples, dates and ornamental plants in a nursery with total area 4,200 m<sup>2</sup>. The crops are now ripe and near to be harvested. The said products are a part of the targeted products that the company plans to grow in large quantities in the upcoming months.
