

## Studying Strategic Partnership with COPAG Cooperative – Morocco

Date : April 12, 2019

HE Sheikh Sulieman AL Rajhi the Chairman and the delegation of RAI BoD members and senior executives organized a visit to COPAG Cooperative – Morocco, where they discussed the establishment of a strategic partnership between the two companies in various sectors.

If agreed, the aim of the partnership is to allow the cooperative members to implement the solar pumping through the AE PHOTONICS company, a subsidiary company of the cooperative – Casablanca – Morocco which is specialized in the renewal energy, as well as supply the COPAG Cooperative with the fodder input from the SGAF company.

In case of agreement, the RAI company will help the COPAG Cooperative to open a new market in KSA and other GCC countries through SGAF company, the trading arm of the RAI and it will develop the COPAG Cooperative products.

The meeting was held by the presence of HE Sheikh Sulieman AL Rajhi personally, and it comes as coronation of a successful series of talks between the two parties to launch this strategic partnership in full recognition of the COPAG Cooperative's successful economic model in the field of cooperatives in Morocco. Hence the two parties' study to ensure the mutual success of this

project.
